DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 recites “walls defining an edge and a drop...first wall...second wall...”. It is not clear in the claim whether or not the walls (defining an edge and a drop) include or are separate from the first wall and second wall.

The examiner suggest reciting - - *a base for supporting said items, said base having an edge and a drop that define a ledge* - -.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1, 2, 3, 6, 7, 8, 9, 10, 12 are rejected under 35 U.S.C. 102(b) as being anticipated by Eggebrecht et al. USP 6,302,638. Eggebrecht discloses a similar device comprising a(n):

Art Unit: 3651

- Base (42) comprising walls defining an edge and a drop (the base structure comprise an edge and a downward projection that is a drop)
- First drive (60)
- First wall (
- Second drive (77)
- Second wall (73)
- Receiving area (58) defined by cooperation (all parts and structure work together) or said first wall, said second wall, and said base.

Allowable Subject Matter

5. Claims 20-25 are allowed over the prior art of record.
6. Claim 4, 5, 11, 13-19 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
7. Claim 1 would be allowable if re-written to recite - - *a base for supporting said items, said base having an edge and a drop that define a ledge* - -. See paragraph 2 above.

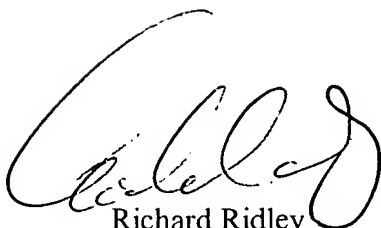

Conclusion

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
